Title:

Three drops of D A Marine Mineral soothe the redness of blood vessels in the white of the eye

1. Overview:

On February 15th, 2023, the user discovered an infection and redness of blood vessels in the white part of his eye. He applied one drop of DA Marine Mineral drops that evening. The following day, on February 16th, he applied one drop in the afternoon and another in the evening, for a total of three drops. By the following day, February 17th, the white part of the eye had completely returned to normal.

3. User Complaints and Objective Medical Evidence Before Using DA Marine Mineral:

User Complaints:

On February 15, 2023, the user felt a "foreign body sensation" in his left eye while purchasing materials at a mall. He did not pay much attention to it at the time. Later that evening, he felt discomfort in his left eye, including swelling, grittiness, and itching, and then noticed that the blood vessels in his left eye were red and swollen.

Photos taken at the time:

Three pictures above: Taken with a mobile phone on February 15th when the user first discovered the redness of the eye.

4. User's Description of the Usage Process of DA Marine Mineral:

(Product, Dosage, Administration, Execution Time, etc.):

On the evening of February 15th, one drop of DA Marine Mineral was administered before bedtime. On the following day, February 16th, one drop was administered at noon and another drop was administered before bedtime.

Note: Were there any other health therapy measures taken during the usage of DA Marine Mineral? No other simultaneous measures were taken during the usage of DA Marine Mineral.

5. User's self-description and photos taken after using D A Marine

Mineral:

Before going to bed on February 15, one drop of D A Marine Mineral was instilled, and the itching and tingling sensation subsided shortly after.

Photo above: On February 16, one drop was instilled at noon, and the user self-tested that the conjunctival congestion had decreased; one more drop was instilled before going to bed.

Photo above: After instilling three drops of D A Marine Mineral, the conjunctival congestion in the left eye returned to normal on February 17.
